

## IUCN WCPA Transboundary Conservation Specialist Group (TBCSG) WEBINARS 2024

*Some of the main objectives of the TBCSG is the exchange of knowledge and experiences and reinforce the collaboration between members.*

*To facilitate this exchange, a series of webinars on various topics related to cross-border cooperation for conservation is planned for 2024.*

*All TBCSG's members are invited to take part in the webinars, and also to suggest to the TBCSG Executive Committee new topics they wish to be explored in future webinars.*

*Webinars will be recorded and the presentations will be available for the members.*

*Thanks for your participation!*

### TBCSG WEBINARS 2024 – n. 1

**The TRANSNATURE interactive MAP:  
An overview of relevant examples of transboundary biodiversity protection.  
How the TBCSG can use and contribute to the map?**

**18.05.2024, from 12:00 CET (1 hour)**

#### PRESENTATION OF THE WEBINAR

Federica Cittadino, a new member of our TBC SG, will present the TRANSNATURE project and the interactive map that currently includes 77 examples of cross-border protection of biodiversity.

With Federica we will discuss how TBC SG members can use the map and how they can contribute to increase and/or augment the collected data, in order to possibly transform the map, after the end of the project, into a living instrument available for TBCSG and IUCN's community.

The map is available here: <https://www.transnature.eu/map>

***VERY IMPORTANT! The webinar is free. The number of attendees is limited to 100, so registration is necessary and priority will be given to TBCSG's members.***

***Please register here <https://forms.gle/xxdqn5bDBnppb7ri8>***

## AGENDA

- 12:00 Welcome and Presentation of the webinars' initiative  
*Stefania Petrosillo and Piet Theron, TBCSG Co-chairs*
- 12:10 The TRANSNATURE project and the interactive MAP  
*Federica Cittadino, Eurac Research - Project coordinator of TRANSNATURE*
- 12:30 Questions and Answers, Debate (\*)  
*Moderated by Stefania Petrosillo*
- 12:55 Conclusions  
*Stefania Petrosillo and Piet Theron*

(\*) This webinar will be in English. Unfortunately, we are not able at the moment to offer an official translation in other languages. Nevertheless, we would like to avoid as much as possible the language barrier so in case of difficulties for some participant, we can accept questions in French, Spanish and German that we will informally translate on the spot 🗣️

## THE SPEAKERS

Federica Cittadino works in Eurac Research as Senior Researcher in Environmental Law & Policy - Institute for Comparative Federalism (Italy). She is the Project coordinator of TRANSNATURE.

Stefania Petrosillo is Expert on Protected Areas and international cooperation. Currently is consultant for the European Commission in the framework of biodiversity initiatives with non-EU Countries (B4Life facility). She is co-chair of TBCSG.

Piet Theron is Landscape Architect working in the environmental planning and management field. He works for Conservation International and he is Senior Advisor of Greater Kruger & Mozambique. He is co-chair of TBCSG.
